E7.3-11081

CR-135550

Organization: Naval Research Laboratory
Title: Terrain Properties and Topography from Skylab Altimetry
Period Covered: Monthly Progress Report, August 1973
EREP Number: EPN 363
Contract Number: T-4716B
Principal Investigator: Allan Shapiro
Date Written: 30 September 1973
Technical Monitor: L. York
NASA Johnson Space Center
Code TF6
Houston, Texas 77058

A test tape was obtained from J. McGoogan (NASA, Wallops Island) and a computer program for read-out of simulated data in Mode 1 of S-193 altimeter operation tested. The output was compared with read-out supplied with the tape and minor discrepancies in accessory data were noted. This is being investigated.

Photographic data of observed areas (Track 20) in SL-2 were received and preliminary geographical location and cloud conditions noted.

No altimeter data has been received and this may entail some modifications in plans submitted with the July 1973 progress report.
